# A Foreign Employee Recruitment& Management System

# A complete eco-system for foreign workers

MGES Core AREAS

There are over 4m foreign workers registered with Immigration Malaysia.

However, the demand is still very stiff.

e-MGES incorporates a complete eco-system ranging from the creation of demand to the visa process in the host country, receipt of workers in

for predictive analytics to assist government and agencies for their policy making information.

Malaysia and then push this information through the intelligent systems
